Inspired by Logos

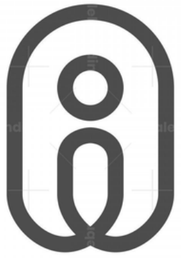

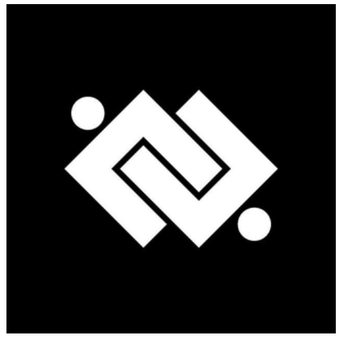

Linktree
Collins

2022, USA

To link all that you are online, this is the vision for Linktree, a “tool that lets anyone untangle their web and become the personal tour guide of their digital universe”. This notion is elegantly symbolised by a new logo by Collins, an arrow pointing to a growing network of online spaces which forms an abstract tree. Connections, growth and technology are principle themes that create a foundation from which to derive a functional and distinctive logo.

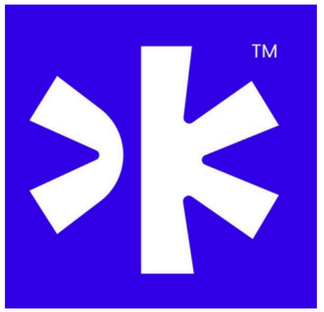

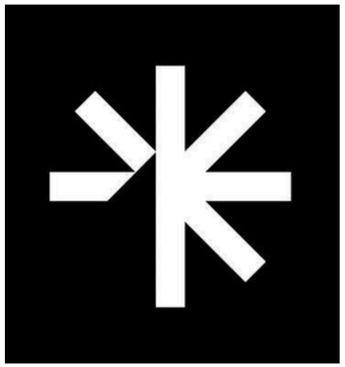

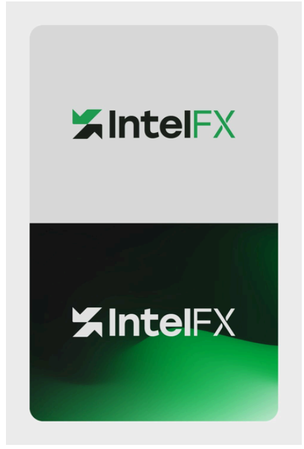

Logo Options

Option 1: *retain*

Option 2: *square design*

Option 3: *interconnected*

Option 4: *upgraded gradient*

Font Options

Font Change Rationale

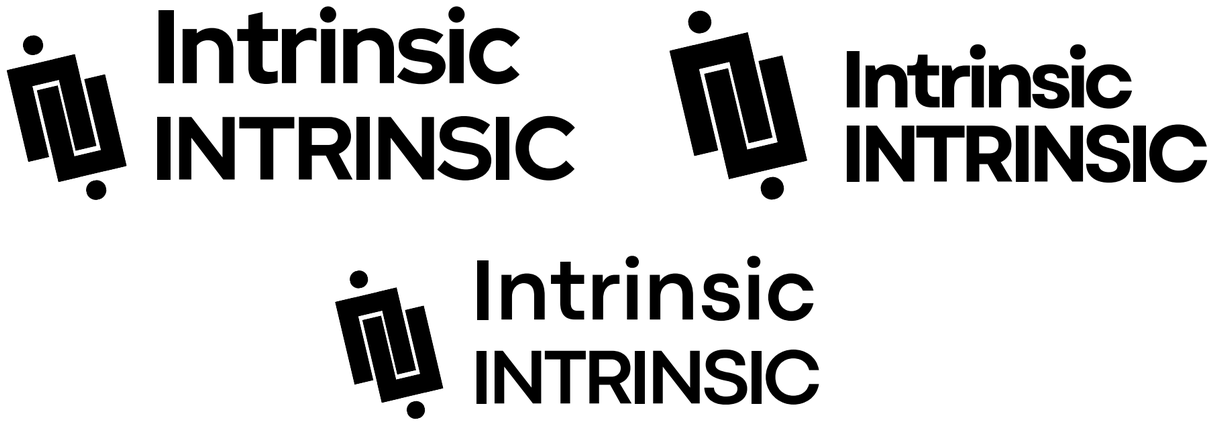

Current

- **outdated and non-technical**
  - font was used in early 2000s & Word documents
- dated font = outdated software

- does not reflect a modern tech company
- current font will clash with new logo

Rebranded

- **Modern tech companies use Sans Serif fonts**
- **Readability is improved** – better on screens, mobile devices, and digital materials
- Modern, professional, **aligned with today's standards**

B2B Sales & Marketing Process

Marketing Objective:

build **trust**, prove **credibility**, show **ROI**

Awareness → **Interest** → **Evaluation** → **Contract, Implementation, Onboarding**

discover company via **Linkedin**, **Website**, Ads, cold contacts

read through **content**, **case studies**, insights

compare vendors, **ask for demos**, check **references**

Linkedin Plan

Objective:

To build credibility, showcase product value, and position Intrinsic as the modern software partner for distributors and manufacturers.

Purpose of Channel:

- **Builds trust** by showcasing expertise, updates, and the people behind the software.
- **Supports long sales cycles** — consistent visibility warms up leads before a sales conversation even starts.
- Positions Intrinsic as a **modern software leader** in a traditional industry.

Content Buckets:

1. **Product Education + Features**

- Explaine Posts
- Feature Deep Dives

2. **Industry Insights for Distributors and Manufacturers**

- Trends in supply chain, logistics, inventory, and distribution
- Data-backed insights
- Simple frameworks and actionable tips

3. **Case Studies + Client Wins**

- Before/After Stories
- Testimonials

Intrinsic Website

Objective:

To convert awareness into action through storytelling, clarity, and trust.

Purpose of Channel:

- It's the **primary conversion engine** — everything on LinkedIn leads here.
- **Hosts all essential content:** product features, demos, ROI stories, and sign-up flows.
- Acts as the **first impression** for distributors and manufacturers seeking solutions

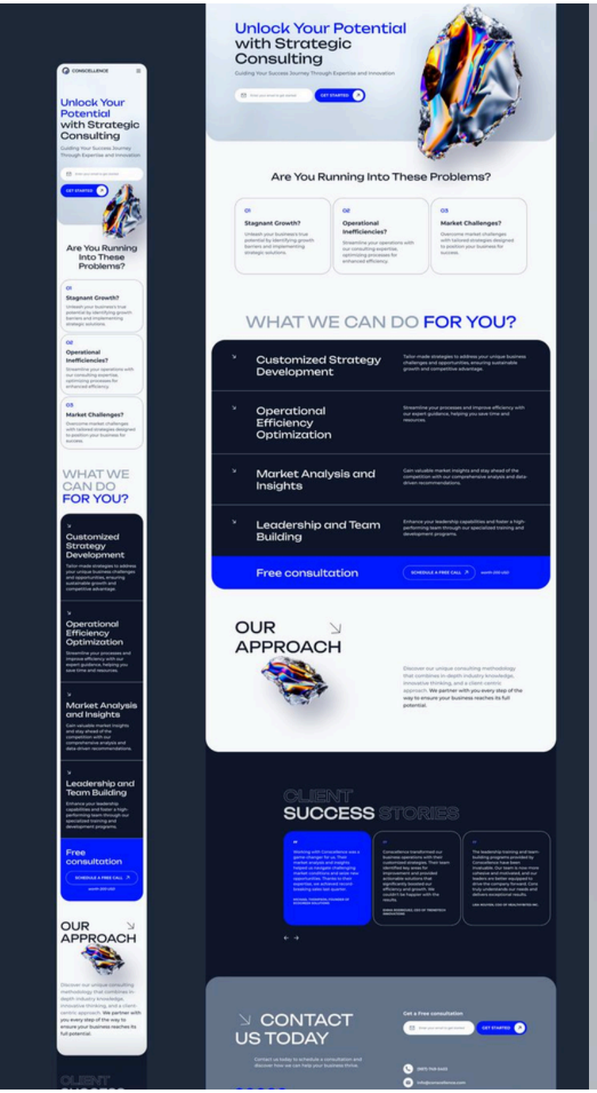

Features:

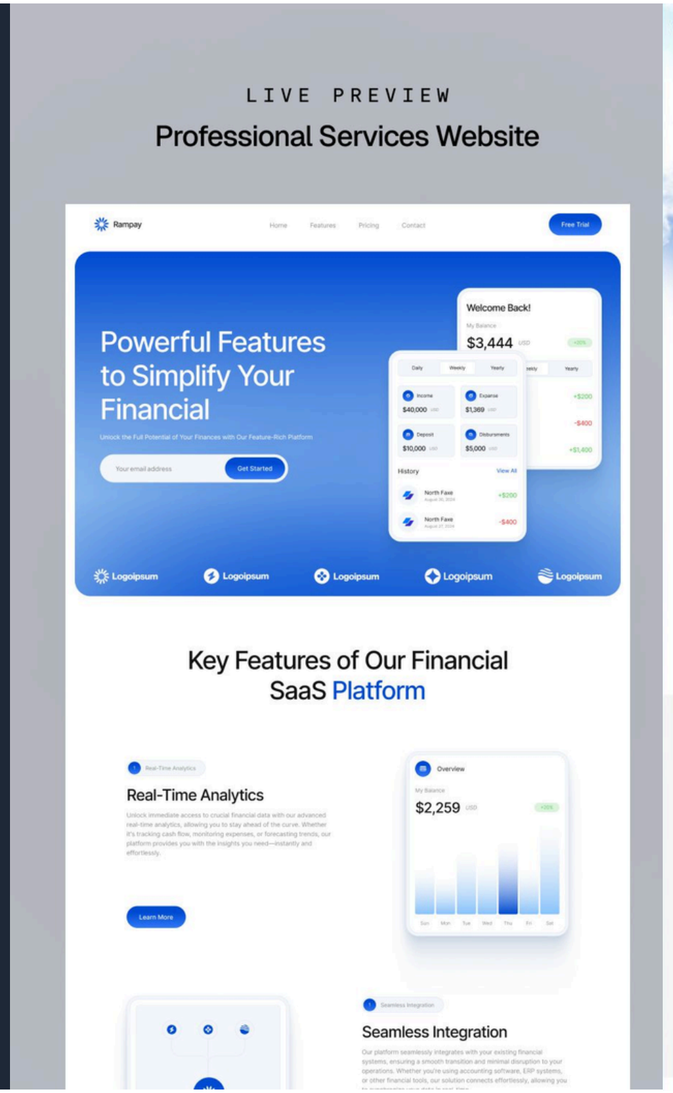

- ALL relevant information
  - FAQs
  - Client/Partner Logos for trust
- Built-in tools for lead capture, forms, contact info
- Easy Demo Booking *(main CTA of Website?*)*
- *(Are we looking into email marketing?)*
- responsive on both mobile and desktop

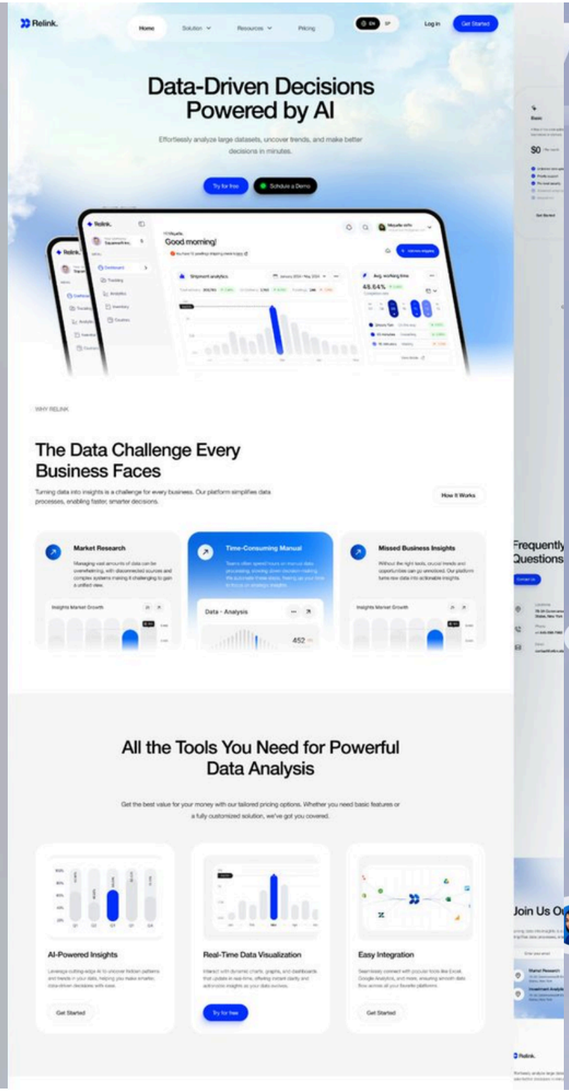

Website Host Suggestions

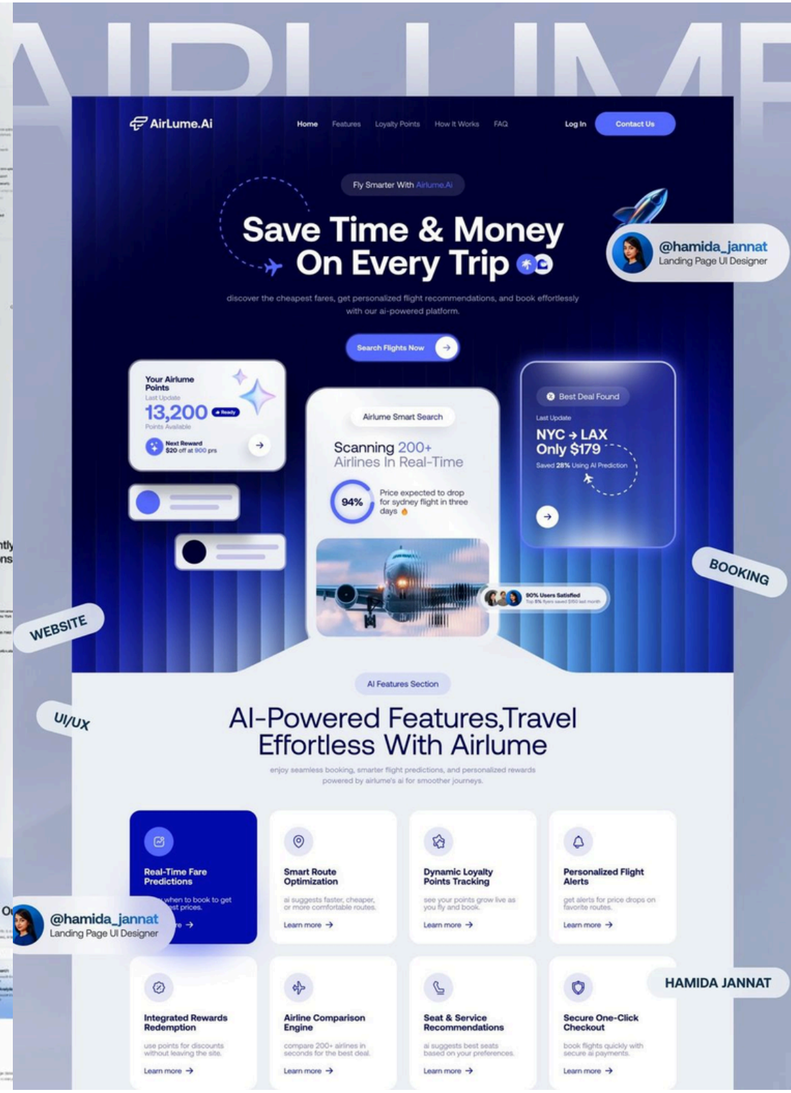

Feature / Requirement	**Wix**	**GetResponse**
	Light - $17/month Core - $29/month	⭐ **Starter - $13.24/month** **Marketer - $41.12/month**
Lead capture / contact forms / opt-in forms / popups / sign-up forms	✔️ Yes — you can embed forms, contact forms, collect submissions. Wix also supports apps/integrations to enhance forms (or integrate with external tools). (wix.com)	✔️ Yes — built-in support for forms, popups, signup/opt-in forms, and landing-page-specific lead capture. (GetResponse)
Demo-booking or CTA functionality (Request Demo / Contact Us / Scheduling)	👍 Generally yes — because you can **embed** contact forms or use booking-apps/integrations from Wix' app marketplace. Wix now supports built-in CRM and automations for business sites. (wix.com)	✅ **Yes — GetResponse is particularly strong for conversion-focused landing pages, with clear CTA buttons, forms, and the ability to drive sign-ups or demo requests directly. (GetResponse)**
Email marketing & follow-up (newsletters, automated emails, lead nurturing)	✔️ Yes — Wix offers email marketing capabilities: automated emails, campaigns. Also, recent updates added more email-marketing tools. (wix.com)	✅ **Very strong — that's a core strength of GetResponse. Built-in email marketing, automation workflows, campaign tools, built-in CRM/lead list management. (GetResponse)**
Analytics / tracking / conversion data	✅ Basic analytics (visitor counts, maybe forms) — good for simple sites and small businesses; plus many 3rd-party integrations if needed. (wix.com)	✅ **Yes — GetResponse includes site/landing-page and campaign analytics, tracking visits, clicks, conversion rates, which helps you optimize for lead generation. (GetResponse)**
Mobile & desktop responsiveness	✔️ Yes	✔️ Yes

Next Steps

logo and branding
[ ] logo finalization
[ ] get canva pro to design a better logo/assets/marketing materials!!
[ ] make assets with all upgraded branding

website
[ ] make wireframes for the website
[ ] design + launch website
[ ] rewrite copy + redesign architecture of the website (i.e. where information goes and what should we put there, rebrand it to the modern age)

content + assets
[ ] come up with LinkedIn content plan
[ ] transform sales documents into pitch decks
